IMPORTANT NOTICES

Must be preceded or accompanied by a Prospectus.

Opinions expressed herein are those of Edson L. Bridges III and are subject to change. They are not guarantees and should not be considered investment advice.

Fund holdings and sector allocations are subject to change at any time and should not be considered a recommendation to buy or sell any security. Current and future portfolio holdings are subject to risk. Please refer to the Schedule of Investments for complete fund holdings.

The S&P 500 Index is a broadly based unmanaged composite of 500 stocks which is widely recognized as representative of price changes for the U.S. equity market in general. The Russell 1000 Growth Index is an unmanaged composite of stocks that measures the performance of the stocks of companies with higher price-to-book ratios and higher forecasted growth values from a universe of the 1,000 largest U.S. companies based on total market capitalization. You cannot invest directly in a specific index.

Free Cash Flow is a measure of financial performance calculated as operating cash flow minus capital expenditures. Free cash flow (FCF) represents the cash that a company is able to generate after laying out the money required to maintain or expand its asset base.

Cash Flow is the net amount of cash and cash-equivalents moving into and out of a business.

The Price-to-Earnings Ratio or P/E ratio is a ratio for valuing a company that measures its current share price relative to its per-share earnings.

Earnings growth for a Fund holding does not guarantee a corresponding increase in market value of the holding or the Fund.

Mutual fund investing involves risk. Principal loss is possible. Small and medium capitalization companies tend to have limited liquidity and greater price volatility than large-capitalization companies. Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities.

The Fund invests in foreign securities which involve political, economic and currency risks, greater volatility and differences in accounting methods.

While the fund is no-load, management fees and other expenses still apply.

The Bridges Investment Fund, Inc. is distributed by Quasar Distributors.

Dear Shareholder:

Performance

Bridges Investment Fund had a total return of 21.98% for the one year period ending December 31, 2017. By comparison, the S&P 500 had a total return of 21.83%, while the Russell 1000 Growth Index finished up 30.21% for the year. The Fund had annualized total returns of 9.44%, 13.78%, and 7.81% for the 3, 5, and 10 year periods ending December 31, 2017, compared to total returns of 11.41%, 15.79%, and 8.50% for the S&P 500, and 13.79%, 17.33%, and 10.00% for the Russell 1000 Growth Index over the same periods of time. Three, five, and ten year periods are annualized. The Fund's gross expense ratio is 0.84%, as disclosed in the most recent Prospectus.

Performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance stated above. Performance data current to the most recent month end may be obtained by calling 866-934-4700.

Review of 2017 and Outlook for 2018

U.S. equities enjoyed strong total returns in 2017, propelled by 1) better than expected corporate earnings growth, 2) a benign interest rate environment, 3) anticipation of corporate income tax cut legislation (which happened in December), and 4) an expansion of equity valuation metrics.

The year was notable for the lack of normal stock price volatility – stock prices essentially worked gradually higher throughout the year.

Stock price gains were broad. Technology was the strongest sector in the market; large cap stocks and growth-oriented companies were generally stronger than smaller cap companies and value-oriented stocks.

We remain positive on the outlook for equities in 2018.

Our constructive stance on stocks is based on the following factors:

1. We expect corporate earnings to continue to show positive growth, which should be helped by corporate income tax cuts.
2. Valuations for stocks are close to our estimate of fair value, given expected earnings growth over the next several years, and a relatively low interest rate environment.

We have established a 2018 year-end fair value target range of 2,700-3,100 for the S&P 500 (about 19.0x estimated 2018 earnings of \$150-157), which implies upside of roughly 8-10% from the S&P's 2017 year-end level of 2,674. Our preliminary year-end 2019 fair value target range is 2,875-3,325 (19.0x estimated 2019 earnings of \$164-170). Our single point year-end fair value estimates for the S&P 500 for 2018 and 2019 are 3,000 and 3,200, respectively.

Risks to our generally constructive outlook for equities include: 1) a significant slowdown in corporate earnings growth; 2) faster than anticipated inflation (consensus inflation expectations are currently the lowest in many years); 3) investor unwillingness to pay high-teens or low 20's multiples for stocks (essentially, a change in prevailing investor sentiment from "constructive" to "concerned"); 4) a deterioration in the domestic political climate around the 2018 mid-term elections; 5) slow or no progress by the Trump Administration against stated policy objectives and/or an exodus of the Administration's key leaders; and 6) a resumption/worsening of global terrorist activity.

We expect a return to more normal levels of stock price volatility over the 2018-19 time frame. While this increases risk to equity investors in the short run, it also creates more opportunities to add to strong companies at relatively more attractive valuations. We would not be surprised to see the stock market both 20% lower and 20% higher than 2017 year-end levels over the course of 2018.

The strong gains in stocks over the past five years have lowered implied returns over the next three to five years, but we believe that stocks remain attractive relative to bonds.

Longer term, we believe equities are currently priced to return between 5-9% annually over the next 5 to 10 years, assuming long term earnings growth of 5-7% and a P/E range of 15-20x (versus a long historic average P/E of 16x for the S&P 500). We expect corporate earnings growth will be higher than long-term trend during 2018 (+10% for the S&P 500 versus 2017), driven by improving economic conditions world-wide, and corporate tax cuts in the U.S. This may support higher equity valuations than normal as long as earnings momentum remains positive.

We continue to favor equities that have strong business franchises and an ability to grow revenues, cash flows, earnings, dividends, and underlying business value at solid rates despite a continued sluggish and highly competitive global economic environment. We believe that companies that are able to achieve solid growth in business value should be able to generate total returns for their shareholders that are commensurate with business value growth.

Our Portfolio

The Fund's portfolio continues to be comprised primarily of companies with strong balance sheets, high levels of profitability, and a demonstrated ability to grow business value over the long run despite periodically challenging economic conditions.

The following table summarizes the changes we made in the Fund in 2017:

<u>NEW BUYS:</u>	<u>ADDS:</u>	<u>TRIMS:</u>	<u>SELLS:</u>
Boeing	Celgene	Altria	Apache
Goldman Sachs	Facebook	Ameriprise Financial	Bioerativ
IQVIA	FedEx	Apple	DaVita
Martin Marietta	Gilead Sciences	Capital One	Goldman Sachs
Materials	Home Depot	Eaton	Level 3
	iShares Core S&P	Express Scripts	T Rowe Price
	Small Cap ETF	Gilead Sciences	
	Thermo Fisher	MasterCard	
	Scientific	Philip Morris	
	Visa	International	
		Union Pacific	
		Visa	
		Wells Fargo	

The companies that were the most additive to the Fund's return in 2017 included Alphabet, Amazon, Apple, Blackrock, Facebook, MasterCard, PayPal, and Visa.

The companies that were the largest drag on performance in 2017 included Allergan, Celgene, Disney, Express Scripts, Gilead Sciences, Qualcomm, and Starbucks.

We believe the Fund's holdings are both 1) well-positioned to grow their business value over the next several years, and 2) valued at levels that are reasonably attractive over the long-run given our assessment of their business value growth potential.

We believe the Fund's holdings are attractively valued looking out over the next several years. At present, the Fund's portfolio trades at 28.6x estimated 2018 earnings and 25.2x estimated 2019 earnings, and have projected long term annual earnings growth of 12-14%. This compares with the 17.8x 2018 P/E, 16.2x 2019 P/E, and 5-7% long term annual earnings growth projected for the S&P 500. The Fund's holding in Amazon (P/E of 169x 2018 estimated earnings, P/E of 95x estimated 2019 earnings) skews the aggregate portfolio valuation metrics materially higher.

The Fund's investment process continues to emphasize the following core tenets:

1. A focus on high quality companies with good prospects for growing their business value at attractive rates of growth over time
2. A strong valuation discipline
3. A long term approach to equity investing

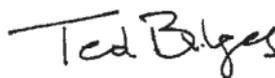

Our investment management approach is based on the premise that over the long run, good businesses produce good investment returns for their shareholders. We seek to identify and own high quality, undervalued businesses that are growing business value for their shareholders at attractive rates.

Over time, we expect to benefit from our investment approach in two ways: 1) as our companies move from undervalued toward our estimate of fair value (positive change in valuation), and 2) from the growth in our companies' underlying business value over time (increasing revenues, earnings, dividends, and free cash flow).

We remain confident that our investment approach should be effective over the long run, as stock prices tend to track underlying changes in business value over the long-run.

The Fund will hold its 55th annual meeting on Tuesday, April 3, 2018. Fund management will provide its outlook for the capital markets and the Fund for 2018 and beyond. We appreciate your continued investment in the Fund, and encourage all shareholders to attend this year's annual meeting.

Sincerely,

Edson L. Bridges III, CFA
President and Chief Executive Officer

BRIDGES INVESTMENT FUND, INC.

EXPENSE EXAMPLE

DECEMBER 31, 2017
(Unaudited)

As a shareholder of the Bridges Investment Fund, Inc., you incur ongoing costs, including management fees; services fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held the entire period (July 1, 2017 – December 31, 2017).

ACTUAL EXPENSES

The first line of the table below provides information about actual account values and actual expenses. Although the Fund charges no sales load or transactions fees, you will be assessed fees for outgoing wire transfers (including redemption requests), returned checks or stop payment orders at prevailing rates charged by U.S. Bancorp Fund Services, LLC, the Fund's transfer agent. To the extent that the Fund invests in shares of other investment companies as part of its investment strategy, you will indirectly bear your proportionate share of any fees and expenses charged by the underlying funds in which a Fund invests in addition to the expenses of the Fund. Actual expenses of the underlying funds are expected to vary among the various underlying funds. These expenses are not included in the example below. The example includes, but is not limited to, management fees, shareholder servicing fees, fund accounting, custody and transfer agent fees. However, the example below does not include portfolio trading commissions and related expenses, interest expense or dividends on short positions taken by the Fund and other extraordinary expenses as determined under generally accepted accounting principles. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value <u>July 1, 2017</u>	Ending Account Value <u>December 31, 2017</u>	Expenses Paid During Period* July 1, 2017 – <u>December 31, 2017</u>
Actual	\$1,000	\$1,107.20	\$4.14
Hypothetical (5% annualized return before expenses)	\$1,000	\$1,021.27	\$3.97

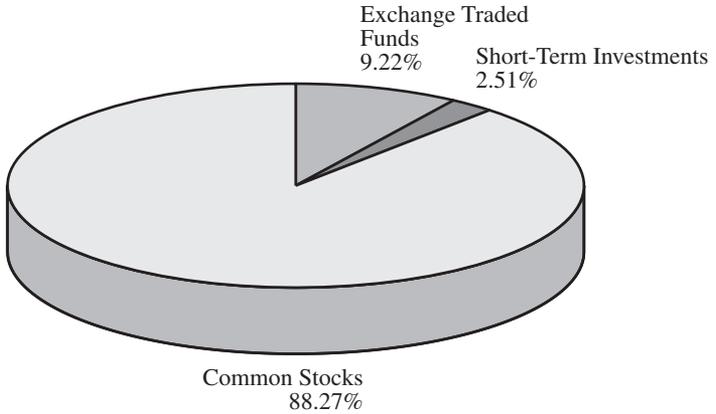

* Expenses are equal to the Fund's annualized expense ratio of 0.78%, multiplied by the average account value over the period, multiplied by 184/365 to reflect the one-half year period.

BRIDGES INVESTMENT FUND, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Bridges Investment Fund, Inc. (the “Fund”) is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company. The primary investment objective of the Fund is long-term capital appreciation. In pursuit of that objective, the Fund invests primarily in common stocks. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

A. Investments –

Security transactions are recorded on trade date. Dividend income is recognized on the ex-dividend date, and interest income is recognized on an accrual basis. Discount and premium on fixed income securities is accreted or amortized into interest income using the effective interest method. Withholding taxes on foreign dividends, if any, have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and rates.

The net realized gain (loss) from the sales of securities is determined for income tax and accounting purposes on the basis of the cost of specific securities.

Securities owned are reflected in the accompanying Statement of Assets and Liabilities and the Schedule of Investments at fair value based on quoted market prices. Bonds and other fixed-income securities (other than repurchase agreements and demand notes) are valued using the bid price provided by an independent pricing service. Other securities traded on a national securities exchange are valued at the last reported sale price at the close of regular trading on each day the exchange is open for trading. Securities listed on the NASDAQ National Market System for which market quotations are readily available are valued using the NASDAQ Official Closing Price (“NOCP”). If no sales were reported on that day, quoted market price represents the closing bid price.

Investments in registered open-end management investment companies will be valued based upon the Net Asset Values (“NAVs”) of such investments and are categorized as Level 1 of the fair value hierarchy.

Securities for which prices are not readily available are valued by the Fund’s valuation committee (the “Valuation Committee”) at a fair value determined in good faith under procedures established by and under the general supervision of the Fund’s Board of Directors (the “Board”).

The Valuation Committee concludes that a price determined under the Fund’s valuation procedures is not readily available if, among other things, the Valuation

Committee believes that the value of the security might be materially affected by an intervening significant event. A significant event may be related to a single issuer, to an entire market sector, or to the entire market. These events may include, among other things: issuer-specific events including rating agency action, earnings announcements and corporate actions, significant fluctuations in domestic or foreign markets, natural disasters, armed conflicts, and government actions. In the event that the market quotations are not readily available, the fair value of such securities will be determined in good faith, taking into consideration: (i) fundamental analytical data relating to the investment; (ii) the nature and duration of restrictions on disposition of the securities; and (iii) an evaluation of the forces which influence the market in which these securities are purchased and sold. The members of the Valuation Committee shall continuously monitor for significant events that might necessitate the use of fair value procedures.

B. Federal Income Taxes –

It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to Regulated Investment Companies ("RICs") to distribute all of its taxable income to shareholders. Therefore, no Federal income tax provision for the Fund is required. Under applicable foreign tax law, a withholding tax may be imposed on interest, dividends, and capital gains earned on foreign securities.

The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. In addition, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the year that the income or realized gains or losses were recorded by the Fund. The Fund has reclassified the components of its capital accounts for the year ended December 31, 2017, by increasing accumulated undistributed net investment income by \$80,329, increasing accumulated net realized loss by \$18 and decreasing capital stock by \$80,347.

The Fund has not recorded any liability for material unrecognized tax benefits as of December 31, 2017. It is the Fund's policy to recognize accrued interest and penalties related to uncertain benefits in income tax expense as appropriate.

C. Distribution To Shareholders –

The Fund records and pays dividends to shareholders on a quarterly basis on the ex-dividend date. Distribution of net realized gains, if any, are recorded and made on an annual basis to shareholders on the ex-dividend date.

D. Equalization –

Until July 1, 2016, the Fund used the accounting practice of equalization by which a portion of the proceeds from sales and costs of redemption of capital shares, equivalent on a per share basis to the amount of undistributed net investment income on the date of the transactions, was credited or charged to undistributed income. As a result, undistributed net investment income per share was unaffected by sales or redemption of capital shares. This practice was eliminated effective July 1, 2016.

E. Use of Estimates –

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of

the financial statements and the reported amounts of increases and decreases in Net Assets from operations during the reporting period. Actual results could differ from those estimates.

In preparing these financial statements, the Fund has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

F. Fair Value Measurements –

GAAP defines fair value as the price that a Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. A three-tier hierarchy is used to maximize the use of observable market data “inputs” and minimize the use of unobservable “inputs” and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity’s own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below:

Level 1 – Unadjusted quoted prices in active markets for identical investments.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The valuation techniques used by the Fund to measure fair value for the year ended December 31, 2017, maximized the use of observable inputs and minimized the use of unobservable inputs. During the year ended December 31, 2017, no securities held by the Fund were deemed Level 3.

The following is a summary of the inputs used as of December 31, 2017, in valuing the Fund's investments carried at fair value:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments				
Common Stocks	\$127,800,313	\$ —	\$ —	\$127,800,313

Total Investments				
in Securities	<u>\$144,788,106</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$144,788,106</u>

There were no transfers between Levels 1 and 2 during the year ended December 31, 2017. Transfers between levels are recognized at the end of the reporting period. Refer to the Schedule of Investments for further information on the classification of investments.

(2) INVESTMENT ADVISORY CONTRACT AND OTHER TRANSACTIONS WITH AFFILIATES

Under an Investment Advisory Contract, Bridges Investment Management, Inc. (the "Investment Adviser") furnishes investment advisory services for the Fund. In return, the Fund has agreed to pay the Investment Adviser a management fee computed on a quarterly basis at the rate of 1/8 of 1% of the average month-end net asset value of the Fund during the quarter, equivalent to 1/2 of 1% per annum. Certain officers and directors of the Fund are also officers and directors of the Investment Adviser. These officers do not receive any compensation from the Fund other than that which is received indirectly through the Investment Adviser. For the year ended December 31, 2017, the Fund incurred \$674,684 in advisory fees.

The contract between the Fund and the Investment Adviser provides that total expenses of the Fund in any year, exclusive of taxes, but including fees paid to the Investment Adviser, shall not exceed, in total, a maximum of 1 and 1/2% of the average month end net asset value of the Fund for the year. Amounts, if any, expended in excess of this limitation are reimbursed by the Investment Adviser as specifically identified in the Investment Advisory Contract. There were no amounts reimbursed during the year ended December 31, 2017.

The Fund has entered into a Board-approved contract with the Investment Adviser in which the Investment Adviser acts as primary administrator to the Fund at an annual rate of \$42,000 and U.S. Bancorp Fund Services, LLC acts as sub-administrator to the Fund. These administrative expenses are shown as Administration fees on the Statement of Operations. As of December 31, 2017, \$10,500 was due to the Investment Adviser for its services as primary administrator. This liability is included in the Accrued expenses on the Statement of Assets and Liabilities.

Effective, July 31, 2017, the Investment Adviser entered into an agreement with Bridges Holding Company ("BHC"), under the terms of which BHC acquired all of the equity of the Investment Adviser. The change in control of the Investment Adviser resulted in the termination of the existing investment advisory agreement. The terms of the new investment advisory agreement are substantially identical to the previous investment advisory agreement. For more information, see the Additional Disclosures section.

Quasar Distributors, LLC (the “Distributor”), a registered broker-dealer, acts as the Fund’s principal underwriter in a continuous public offering of the Fund’s shares. The Distributor is an affiliate of U.S. Bancorp Fund Services, LLC.

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Bridges Investment Fund, Inc. (the “Fund”) as of December 31, 2017, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, including the related notes, and the financial highlights for each of the five years in the period then ended (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of Bridges Investment Fund, Inc. as of December 31, 2017, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits include performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and confirmation of securities owned as of December 31, 2017, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Fund’s auditor since 2011.

PRIVACY POLICY NOTICE
(Unaudited)

Protecting your privacy is important to Bridges Investment Fund, Inc. and our employees. We want you to understand what information we collect and how we use it. In order to provide our shareholders with a broad range of financial products and services as effectively and conveniently as possible, we use technology to manage and maintain shareholder information. The following policy serves as a standard for all Bridges Investment Fund, Inc. employees for the collection, use, retention, and security of nonpublic personal information.

What Information We Collect

In order to serve you better, we may collect nonpublic personal information about you from the following sources:

- Information we receive from you in connection with opening an account or establishing and maintaining a shareholder relationship with us, whether in writing or oral;
- Information about your transactions with us or our affiliates; and
- Information we receive from third parties such as your accountants, attorneys, life insurance agents, family members, financial institutions, custodians, trustees and credit bureaus.

“Nonpublic personal information” is nonpublic information about you that we obtain in connection with providing a financial product or service to you. For example, nonpublic personal information includes the contents of your application, account balance, transaction history and the existence of a relationship with us.

What Information We Disclose

We do not disclose any nonpublic personal information about you to anyone, except as permitted by law. We are permitted to disclose nonpublic personal information about you to other third parties in certain circumstances. For example, we may disclose nonpublic personal information about you to third parties to assist us in servicing your account with us.

If you decide to close your account(s) or become an inactive shareholder, we will adhere to the privacy policies and practices as described in this notice.

Our Security Procedures

We also take steps to safeguard shareholder information. We restrict access to your personal and account information to those who need to know that information to provide products and services to you. Violators of these standards will be subject to disciplinary measures. We maintain physical, electronic, and procedural safeguards that comply with federal standards to guard your nonpublic personal information.

ADDITIONAL DISCLOSURES

RESULTS OF A SPECIAL MEETING OF SHAREHOLDERS (Unaudited)

The independent directors of the Board approved a new investment advisory agreement between Bridges Investment Management, Inc. (“BIM”) and the Fund on April 18, 2017, which approval was subject to shareholder approval and the anticipated closing of the change of control transaction of BIM. On June 23, 2017, a total of 1,618,867 shares were present in person or by proxy out of 2,350,544 shares issued and outstanding and entitled to vote at the Special Meeting.

The purpose of the meeting was to consider and act upon the following proposals:

- 1.) To approve a new Investment Advisory Agreement between the Fund and Bridges Investment Management, Inc.
- 2.) Vote on directors (Daniel J. Brabec, Edson L. Bridges III, Robert W. Bridges, Nathan P. Dodge III, Adam M. Koslosky, Robert Slezak, Kelly A. Walters and Lyn Wallin Ziegenbein)

The tabulation of the shareholder votes rendered the following results (in shares):

Accordingly, the proposals were approved by the Fund’s shareholders.

INVESTMENT ADVISORY AGREEMENT DISCLOSURE (Unaudited)

The new investment advisory agreement became effective on July 31, 2017 (the date on which the change of control transaction closed). Thereafter, the term of the agreement shall continue for successive annual periods subject to the requisite approvals. The new investment advisory agreement did not change any of the material terms of the prior investment advisory agreement.

As required by the terms of the investment advisory agreement, the independent directors of the Board vote for the continuance of the agreement no less than annually. On November 21, 2017, the Fund’s investment advisory agreement with BIM was approved by the independent directors of the Board for a period commencing on July 31, 2018 through July 30, 2019.

In approving the continuance of the investment advisory agreement, the independent directors of the Board reviewed the financial resources of BIM, the investment performance record, types of securities purchased, and asset size of the Fund in comparison with funds of similar size and comparable investment objectives, the operating costs relative to other funds, and other factors including the quality of investment advice and other services set forth in a special study prepared annually for the Board by the investment manager. In addition, the

independent directors of the Board reviewed the expertise, personnel, and the resources BIM is willing to commit to the management of the Fund, its compliance program, the cost of comparable services and the benefits to be received by BIM.

With respect to BIM's financial resources, BIM provided the Fund's Board of Directors information showing (as of December 31, 2016) total assets of \$7,477,806, no long-term debt, and total shareholders' equity of \$6,777,829 with a current ratio (current assets to current liabilities) of 11.1x and an equity to total assets ratio of 90.64%.

The directors reviewed and focused on the Fund's past performance and operations in their evaluation and decision. Based on information gathered from a leading mutual fund evaluator, the directors compared the Fund's performance criteria to funds with similar investment objectives. The total fund comparison universe varied depending on the time frame of the comparison and other investment parameters included, but with respect to funds with a growth investment objective, the Fund ranked, on percentile terms, in the 78th percentile over a trailing 12-month period, 86th over a 3-year period, 85th over a 5-year period, and 63rd over a 10-year period (as of October 31, 2017).

The directors reviewed the asset allocation of the Fund, including the percentage of Fund assets invested in stocks (95.14% as of October 31, 2017) and bonds (0.00% as of October 31, 2017). They also reviewed a number of current ratios for the Fund's portfolio, including the current price/earnings ratio of Fund stocks (23.4x as of October 31, 2017) price/cash ratio (15.3x) and price/book ratio (3.4x), as well as the Fund's turnover ratio, which at 11% for the trailing twelve months, was still well below the average turnover ratio average of 59% for a comparison group of large cap growth funds. The directors also reviewed the Fund's expense ratio, which was 0.84% for the period ending October 31, 2017, compared to an average of 1.65% for a peer group of funds selected as the comparison group.

The Board also reviewed the extent to which economies of scale would be realized as the Fund grows, and the expected impact of any growth in Fund assets on the Fund's fee structure, including fees and expenses which are not directly related to the size of the Fund, and provisions in agreements with service providers which carry a lower basis charge if the Fund asset base increases.

With respect to the Fund's compliance program, the directors were provided information concerning both the historical practices to ensure compliance by Fund personnel, as well as current actions taken to strengthen the Fund compliance structure.

The Board noted that Edson L. Bridges III has more than 34 years of experience with the Fund's portfolio and thus is very familiar with the Fund's history and operations. The Board of Directors further noted that Edson L. Bridges III has been responsible for the day-to-day management of the Fund's portfolio since April 11, 1997, with Brian Kirkpatrick as the back-up person in this position.

At each Board of Directors meeting, the Board reviews the brokerage commissions and fees paid with respect to securities transactions undertaken for the Fund's portfolio during the prior three-month period for the cost efficiency of the services provided by the brokerage firms involved, all of which brokerage firms are non-affiliated with the Fund and BIM. The Fund's Board of Directors reviewed in May 2017 an annual disclosure for 2016 on soft dollar commission arrangements of BIM and the benefits that BIM and its clients may receive from the Fund's portfolio transactions. The Board has regularly reviewed the brokerage commissions paid on each portfolio security transaction since 1995, and the actions taken by the management during the prior quarter with respect to portfolio transactions and commission levels have been approved by the Board of Directors.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Unaudited)

Introduction

The following information is provided in response to Item 22 in the Form N-1A to be filed annually under the Investment Company Act of 1940 with the Securities and Exchange Commission in Washington, D.C. The Form N-1A prescribes certain information that is to be included in the Prospectus for the Fund.

Item 22(b)(3)

The Directors, as a group, were paid a total of \$48,500 by Bridges Investment Management, Inc. for their attendance at Audit and Administration/Nominating Committee meetings in addition to Board of Directors and Independent Board meetings held during 2017. These fees were reimbursed by the Fund in the calendar quarter that followed the date such payment was made.

The Officers, as a group, were not paid any compensation by the Fund for their services during 2017. During the most recent fiscal year ended December 31, 2017, the Fund paid its investment adviser, Bridges Investment Management, Inc., \$674,684 in fees under the investment advisory contract.

Item 22(b)(5)

Officers and Directors

The Board is responsible for managing the Fund's business affairs and for exercising all the Fund's powers except those reserved for the shareholders. The following tables give information about each Board member and the senior officers of the Fund. Where required, the tables separately list Board members who are "interested persons" of the Fund (i.e., "Interested" Board members) and those who are not (i.e., "Independent" Board members). In addition, the Fund's Statement of Additional Information includes additional information about Fund directors and is available, from the Fund's website at <http://www.bridgesfund.com> or by calling 1.800.939.8401.

The determination of an interested person is based on the definition in Section 2(a)(19) of the Investment Company Act of 1940, and Securities and Exchange Commission Release (Release No. IC-24083, dated October 14, 1999), providing additional guidance to investment companies about the types of professional and business relationships that may be considered to be material for purposes of Section 2(a)(19). Interested persons include a director or officer of the Fund who has a significant or material business or professional relationship with the Fund's investment adviser, Bridges Investment Management, Inc. Those individuals who are not "interested persons" are disinterested persons for this disclosure. Bridges Investment Fund, Inc. considers these proposed Board members to be "independent directors" exercising care, diligence and good business judgement with respect to the governance of the Fund.

The address for all Fund Officers is, 8401 West Dodge Road, Suite 256, Omaha, Nebraska 68114

The Statement of Additional Information (SAI) includes additional information about Fund directors and is available at the Fund's website, www.bridgesfund.com, or by calling 1-800-939-8401.

Item 22(b)(7)(i)

This item requires a discussion of those factors, including relevant market conditions and the investment strategies and techniques pursued by the Fund's investment adviser that materially affected the performance of the Fund during the most recently completed fiscal year. The investment performance for 2017, the most recently completed fiscal year, was a 21.98% total return with cash and capital gain distributions reinvested in shares of capital stock in the Fund.

The relevant market conditions and the investment strategies pursued by the Fund's investment adviser that materially affected the performance of the Fund during the most recently completed fiscal year are fully described on pages one through three of the Shareholder Letter, which is a part of the Annual Report.

Item 22(b)(7)(ii)

The Fund is required to provide a line graph comparing the initial account value and subsequent account values at the end of each of the most recently completed ten fiscal years of the Fund, assuming a \$10,000 investment in the Fund at the beginning of the first fiscal year to the same investment over the same periods in an appropriate broad-based securities market index. In a table placed within or contiguous to the graph, the Fund's average annual total returns for the one, five, and ten-year periods ended on the last day of the most recent fiscal year, computed in accordance with applicable SEC regulations and guidelines, are provided.

This line graph appears on page MD&A-9. The information on the line graph is set forth without amplifying commentary. However, the interpretative discussion that precedes and follows in this section of the Annual Shareholder Report for 2017 is an integral part of the overall presentation concerning investment performance.

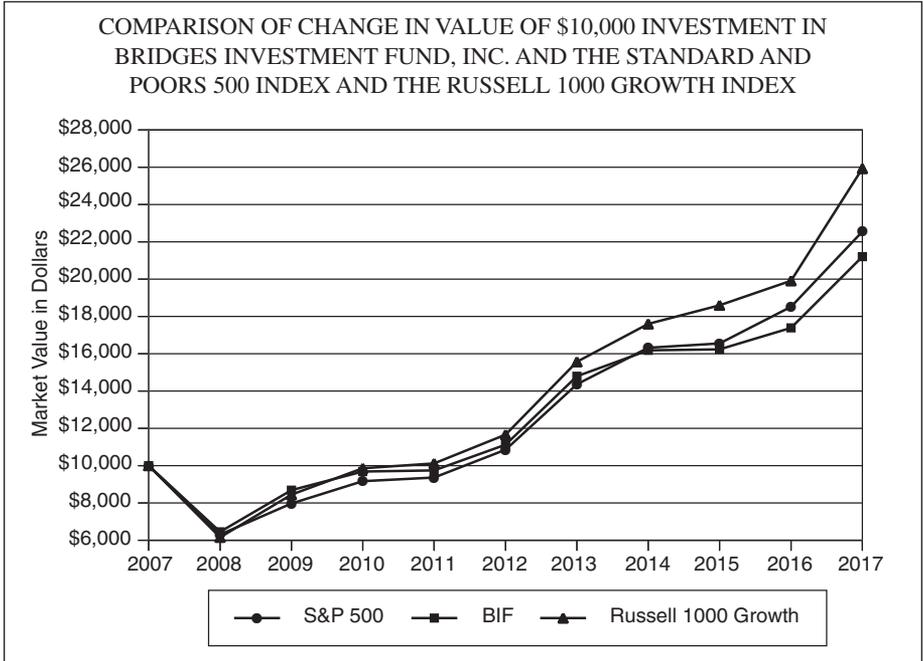

The assumptions for the preparation of data to compute performance for the Standard & Poor's 500 Composite Index, the Russell 1000 Growth Index, and for Bridges Investment Fund, Inc., along with other items of information and analysis, appear on pages MD&A-10.

The Standard & Poor's 500 Composite Stock Index was chosen as the appropriate broad-based market index for comparison with our Fund for the purpose of benchmarking the results of a 100% common stock investment as an alternative to an investment in our Fund. Common stocks have ranged between 87.3% to 98.3% of total market value in the Fund's portfolio over the last decade. This observation means that our Fund's investment record in the typical year is unlikely to match, exactly, results of a securities investment in the Standard & Poor's 500 Composite Index because the same degree of risk/reward has not been assumed by the Fund. Nevertheless, the S&P 500 has the best data for tracking the general price trends for large capitalization and widely owned stocks; a representative list of which is held by our Fund.

AVERAGE ANNUAL TOTAL RETURN

1 YEAR	5 YEAR	10 YEAR
21.98%	13.78%	7.81%

The Fund's past performance is not an indication of how the Fund will perform in the future. The performance information presented does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

**INFORMATION SUPPORTING AND SETTING
QUALIFICATIONS FOR INVESTMENT RETURNS**

Assumptions

1. The initial investment was made at the public offering price last calculated on the business day before the first day of the first fiscal year.
2. The subsequent account values are based on the net asset values of the Fund last calculated on the last business day of the first and each subsequent fiscal year.
3. The calculation for the final account value assumes the account was closed and the redemption was at the price last calculated on the last business day of the most recent fiscal year.
4. All dividends and capital gains distributions by the Fund were reinvested at the price on the reinvestment dates. The dividend for the Standard & Poor's 500 Composite Index for the previous quarter was invested at the month-end price closest to the reinvestment date for the Fund. The Russell 1000 Growth Index is a total return index that reinvests dividends continuously as they are paid.

Appropriate Index

The Fund is to select an “appropriate broad-based securities market index” that is administered by an organization that is not an affiliated person of the Fund or its investment adviser. The securities index chosen must be adjusted to reflect reinvestment of dividends on securities in the index, but not the expenses of the Fund.

Use of Additional Indexes

In addition to the required comparison to a broadly-based index, mutual fund registrants with the Securities and Exchange Commission are encouraged to compare their performances to other more narrowly-based indexes that reflect the market sectors in which they invest. Management chose the Russell 1000 Growth Index as an additional index for comparison because the Fund’s Investment Manager invests primarily in large capitalization companies that have or are expected to have higher-than-average growth rates in revenues and earnings.

Item 22(d)(3)

The Fund files its complete schedule of portfolio holdings with the SEC for the First and Third Quarters of each fiscal year on Form N-Q, which is available on the SEC’s website at <http://www.sec.gov> or can be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. (information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.) These reports can also be obtained from the Fund by sending an e-mail to fund@bridgesinv.com or calling 1-800-939-8401.

Item 22(d)(4) & (5)

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities, and a report on how the Fund voted such proxies during the 12-month period ended June 30, 2017 can be obtained at the Fund’s website at www.bridgesfund.com or by calling 1-800-939-8401, or from the SEC’s website at <http://www.sec.gov>.
